A photograph of an industrial workshop or factory floor. The scene is dominated by large, blue hydraulic presses and other machinery. The ceiling is high with exposed metal beams and industrial lighting. The floor is a light-colored concrete. A yellow and green safety line is visible on the floor in the foreground. The image is partially obscured by a large red diagonal shape on the left side.

ABOUT COMPANY

As the industrial sector of Richards Bay expanded, there was an ever increasing demand for hydraulic services in the area. Due to this optimistic opportunity as well as his immense experience in the hydraulic field, Vicky Sirkar founded Bay Hydraulics & Chroming in 2004. Commencing from a humble one man operation, Bay Hydraulics & Chroming has over the years evolved tremendously and today it is one of the leading hydraulic companies in the North coast of Kwa-Zulu Natal.

We specialize in sales, services, repairs and manufacture of hydraulic and pneumatic equipment at an exceptionally competitive price; and together with our high standard of workmanship, Bay Hydraulics & Chroming consistently meets and exceeds our client's requirements.

STRATEGY & VISION

Bay Hydraulics & Chroming envisages on becoming a nationally renowned hydraulic corporation by applying 3 simple steps to reach its aims and objectives:

BEST SERVICE

We will go the extra mile to ensure that our customers are provided with service that is unsurpassed and unforgettable.

HIGHEST QUALITY

We pledge to supply workmanship and products with superior value.

COMPETITIVE PRICES

We will ensure that our rates are affordable and a true reflection of the services and products we offer.

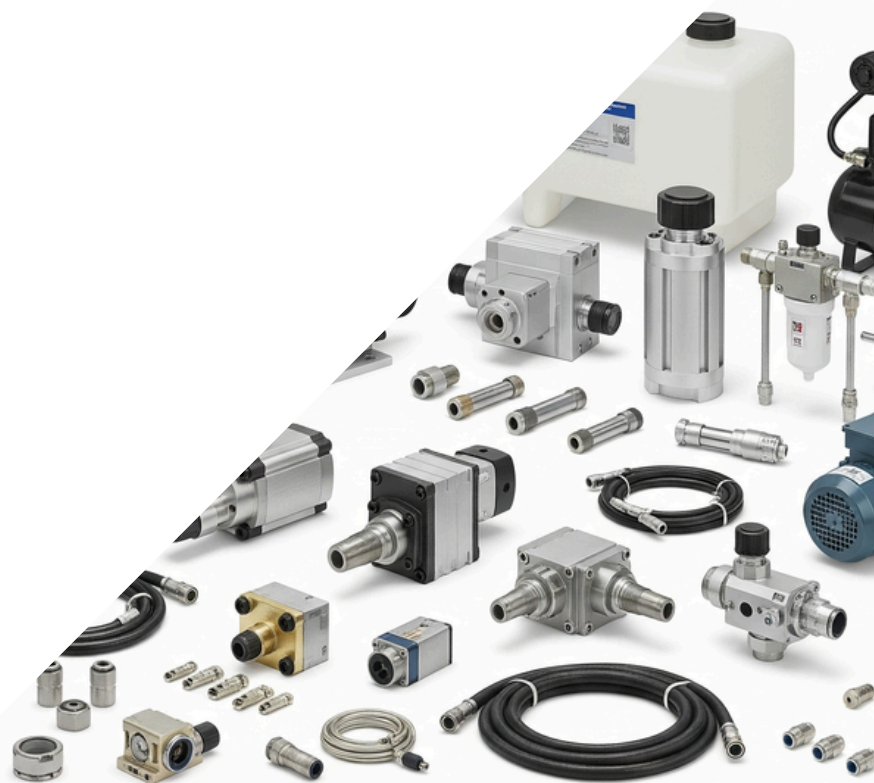

MISSION STATEMENT

Our mission is to exceed our customers' expectations in quality, delivery and cost through continuous improvement and customer interaction.

Combined with a dedicated team, durable machinery and proven systems, Bay Hydraulics & Chroming strives to enhance production efficiency. We are equipped with both the knowledge and resources required to conform to the demands of the industry.
